Flood plain zoning will go ahead

100 make final plea

Whether or not Anson, Hindon and Minden Townships Council gives its blessing, flood plain zoning will be a fact in this municipality.

Nearly 100 people, many from neighbouring Lutterworth Township, came out to the Minden Community Centre last Tuesday to have their final say in opposition to the zoning, which

most feel will cause their property values to plummet. They soon discovered that at this point in the proceedings their voices carry little weight in determining the final outcome of this issue.

If townships council

refuses to adopt the designated flood plain into its zoning, the Ministry of Natural Resources will.

Brian O'Donoghue, Senior Planner with the ministry's Algonquin Region office, told the large gathering that the

ministry hopes it will not have to force this upon the municipality. However, he promised that if council does not adopt this into its zoning bylaws, the ministry will implement it.

O'Donoghue said the ministry has spent a great

deal of time on this project and is satisfied the mapping is as accurate as possible. Bob Lehman, president of Lehman and Associates planning, agreed. "It's as accurate as we can make it," he said. It would cost hundreds of

thousands of dollars to improve the accuracy, he said, noting that taxpayers would cover that cost.

Tuesday's gathering served both as a public hearing and as a special meeting of council. Many had assumed council would put the matter up for a vote that night. How-

(more on page 2)

Police mum about killing

Police are being tight-lipped about the discovery of a body in the bush north of Eagle Lake. The body, identified as that of Douglas Ross Rate, was found on Wednesday.

According to the press release issued by the district headquarters of the OPP in Peterborough, the man died of a gunshot wound that was not self-inflicted.

The identity of the man was confirmed at a post mortem held at the coroner's office in Toronto. The 38 year old Eagle Lake man had been the subject of a search by the local OPP who had listed him as a missing person for a number of weeks.

An OPP spokesman refused to provide any further information regarding the homicide.

Detective Lyle MacCharles of the Ontario Provincial Police Criminal Investigation Branch is heading the investigation.

Amalgamation talks put on hold, Eakins invited

Talks of amalgamation of Haliburton County municipalities have been put on hold until John Eakins, Minister of Municipal Affairs can be present.

Eakins, the Victoria - Haliburton MPP, will be invited to the July meeting of county council to address this matter. He has previously spoken in favour of the initiative to eliminate small municipalities through amalgamation.

At the county's March

meeting, councillors Bill Howe and Sinc Nesbitt notified other council members that they intended to bring this issue up at the next meeting. In the meantime, three municipalities passed resolutions opposing amalgamation. These resolutions from the townships of Dysart et al, Glamorgan and Snowdon were read at last Wednesday's meeting.

Although Howe, who is the Reeve of Bicroft, was absent from Wednesday's

(more on page 6)

Bob Lehman, president of Lehman and Associates presents the township's case during the public meeting on the proposed flood plain zoning Tuesday night at Minden Community Centre.

Employees with the Ministry of Transportation arrived early Friday morning to inspect the damage done to Highway 121 east of Haliburton when a beaver dam broke. The deluge which followed washed out a portion of the highway along the shore of Loon Lake.

Dam break ruins road

Repairs to Highway 121 east of Haliburton Village are expected to be completed today following a wash-out early Friday morning that swept a section of the roadbed into Loon Lake.

The wash-out, the result of a beaver dam which broke, occurred during the early morning hours leaving deep gullies and teetering blocks of pavement where the highway once followed the shore of the lake. Close to 50 feet of roadway was damaged by the torrent of water that swept down from a nearby hill.

Ministry of Transportation crews worked throughout Friday in an effort to repair the damage. Working against time, the employees established a two lane gravel road across the wash-out in time for the heavy traffic of the first holiday weekend of the summer. Additional repairs are expected to be completed this week.

No date set for council vote

(from page 1)

ever, this was not the case and no date has yet been set for this to be dealt with.

Like previous meetings on this matter, tempers were hot and the spokesmen took turns at fielding questions, statements and

accusations.

The main question, which in the opinion of some remains unanswered, is why this sort of zoning is

deemed necessary. The ministry's response is that the federal and provincial governments want to get away from providing relief to people who build in an area prone to flooding. However, few people accepted that explanation Tuesday.

One woman commented that she has lived in Minden for more than 50 years and has never witnessed a serious flood. Another person said this whole procedure is designed to "protect people against a paper tiger." He said that if there was ever any serious flooding in the past in Minden, neither government was asked to provide compensation.

When Lehman was pressed on this question, he passed the buck to council. "The people you want to hear your concerns is council. We're already convinced. We've done the work."

Councillor Verne Graham, who at this point

was seated near the back of the hall, defended his stand on the matter. He said the town has flooded in the past. He has at least six photographs of the 1943 flood. The boundaries of that flood match those of the designated flood plain, he added.

Graham and Reeve Sinc Nesbitt will not be voting on this issue, though. Minden resident Roy Windover noted that these two council members have an interest in the matter and should declare a conflict when it comes to a vote. At that point, Nesbitt said that he and Graham will be declaring a conflict.

According to the information given at Tuesday's meeting, the proposed flood plain will be broken down into two areas: the flood way and the flood fringe.

Building and additions will be allowed in the flood fringe area as long as enough fill is placed down to raise the property above

the flood level. No windows or other openings would be allowed below the flood level.

In the flood way, additions of up to "about" 50 per cent of the present building area will "probably" be permitted, according to Lehman. There are 10 vacant lots in that area on which no development will be permitted.

Regarding concerns for loss of property value, Lehman told the gathering that there will likely be no effect on properties in the flood fringe. He said that in other parts of the province where this zoning has been implemented, property values have remained stable.

If values do fall, and it can be proven to the assessment office, then taxes could be reduced. The ministry will not reimburse the municipality for any lost taxes, though.

Criteria used is questionable

One of the main bones of contention with the flood plain mapping of the Gull River in Minden is the criteria used in establishing the flood level.

At Tuesday's open house meeting it was explained that the level was derived by assuming that a major storm, similar to one experienced in Timmins, will also happen in Minden at some point in the future. That 1961 storm dropped seven inches of water into the watershed within a 12-hour period, causing severe flood damage.

This data was put into a computer model of the Gull River watershed assuming the area lakes were at their maximum levels, and a flood elevation was established.

Some residents at Tuesday's meeting complained that this method of coming up with a flood elevation is illogical. Storms of that nature generally occur in the summer, at which point the lake levels in Haliburton would be much lower. "The maps are based on a summer-time storm happening on lake level conditions," one person complained.

Bob Lehman, president of Lehman

and Associates planners, responded to this concern. He said that it is possible for such a storm to happen as early as May. At that time, the lake levels would be near their maximum level.

Gord Monk, who has been the main opponent of this zoning over the past few months, summed up his feelings in a letter to council. "The Ministry of Natural Resources and the Department of the Environment have created a hypothetical situation which may never occur in this area."

"Figures have been quoted and loss of property and lives cited by the ministry," Monk continued. "You leave us with one resolve if you are to have any credibility - buy our property at today's fair market value and we will let you have your flood plain and water reservoir. This applies to Anson, Hindon and Minden Council as well as the ministry. If we are in the danger zone you claim we are, show good conscience, good faith and credibility by demanding immediate fully subsidized relocation. If not, go away and leave us alone."

Trent-Severn Report

A more generous snow-pack in the Haliburton Highlands provided a more substantial runoff in 1988 than in 1987. This has resulted in Reservoir Lakes levels peaking at 101 per cent, and holding by

May 13 at about a 99 per cent average.

The 1987 levels averaged only 84 per cent by this date.

Many of the reserve dams are set with only one stoplog out, but a contin-

uing balancing act is needed to maintain levels. Wet weather would require increases in flow very quickly while dry weather would soon result in a decline of the levels, because outflows are already near minimums.

The navigation season is set to open on Friday, May 20, and water levels appear to be ready in all areas.

The flow of some of the rivers is generally lower than the long-term mean for May as a result of less than normal precipitation during most of 1988 so far. Gull River flow averaged 27.5 cubic metres per second the first 13 days of May but has fallen below 15 the 12th and 13th. Normal May average is 24.2 cubic metres per second.

Haliburton area snow-pack was really the only precipitation factor that has exceeded normal this year. Snowpack and rainfall were less than normal throughout the Kawartha and the Lake Simcoe Watershed.

Dorset acid rain report

The following report on precipitation events was recorded at the Ministry of Environment acid rain testing laboratory in Dorset and compiled by Environment Canada.

This report covers the period of May 8 - 14.

- on May 9, 5 mm rain, pH 3.9 from Georgia, Tennessee, Kentucky, West Virginia, Ohio and southern Ontario.

- on May 10, 2 mm rain, pH 4.5 from North Carolina, South Carolina, West Virginia, Ohio and southern Ontario.

- on May 12, 2 mm rain, pH 4.2, from Michigan, Indiana, Ohio and southern Ontario.

- on May 13, 7 mm rain, pH 4.5 from Michigan, Ohio and southern Ontario.

Environmental damage is usually observed in sensitive areas regularly receiving precipitation with pH less than 4.7. Readings of 4.0 pH or less are considered dangerous. The lower the reading the more acidic the precipitation.

HHSS athletes combine for fourth

Athletes from Haliburton Highlands Secondary School placed fourth overall in the Central Ontario Secondary School Association track and field meet held Thursday at Napanee. The team captured 229 points to claim the fourth place standing. Ahead of the HHSS team were St. Peters of Peterborough, East Northumberland and Centennial Secondary School. There were seven schools competing in the various events.

The local high school also placed first in the 'A' division, which includes schools with smaller student populations.

The top five competitors from each of the events last week qualify for the Eastern Regional finals to be held at Queen's University May 27. Among the competitors from HHSS were (placements are indicated in the brackets following the name):

100 metre run: senior

boys, Shane Nesbitt (6); senior girls, Lori Anne Duguay (6).

200 metre run: midget boys, Darren Danylynshen (5); senior boys, Shane Nesbitt (4); midget girls, Mary Ingrosso (3); senior girls, Leslie Tashlin (2).

400 metre run: midget boys, Craig Bain (4), Darren Danylynshen (6); junior boys, Mark Sorenson (2), Brent Flood (6).

100 metre hurdles: midget boys, Hunter Obee (4); senior boys, Darren Whitaker (1); junior girls, Jodie McKnight (1); senior girls, Leslie Tashlin (1).

400 metre hurdles: midget girls, Ursula Beachli (6); junior girls, Tanya Willison (5); senior girls, Lindsay Tashlin (4); midget boys, Hunter Obee (1); junior boys, Darren Warburton (5).

4 by 100 relay: midget boys, HHSS team (1); junior boys, HHSS team (6); midget girls, HHSS

team (3); senior girls, HHSS 'A' team (2), HHSS 'B' team (4).

Open boys 4 by 400 relay: HHSS team (6).

Long jump: junior boys, Mark Sorenson (3); senior boys, Shawn Stoughton (3); midget girls, Mary Ingrosso (2).

Pole vault: midget boys, Hans Fluegel (3); junior boys, Steven Powell (2); senior boys, Gavin McKnight (4).

Discus: midget boys, Dustin Davis (4); junior boys, Marty Andrews (1); senior boys, Jeff Popple (2); midget girls, Melanie Maxwell (5); junior girls, Melanie Duchene (2); senior girls, Nicole Vachon

Shot put: senior boys, Jim Bruce (5).

Javelin: junior boys, John Vuksic (5); senior boys, Ron Perrin (1).

Triple jump: junior boys, Taly Williams (2); senior boys, Shawn Stoughton (5); senior girls, Lori Anne Duguay (2).

Deneena Davis releases the shot for a distance of 8.51 metres to earn her a sixth place finish in the COSSA competitions in Napanee. The HHSS team collected 229 points and finished the day in fourth place.

Hunter Obee breaks through the tape at the finish of the 400 metre hurdles at last Thursday's Central Ontario Secondary School Association track and field meet in Napanee. Obee finished first in this event and fourth in the 100 metre hurdles.

Answers

Anson, Hindon and Minden Townships Council should give no further consideration to the proposed flood plain zoning until the Ministry of Natural Resources and Lehman and Associates can begin giving straight answers.

One of the main complaints from the very start in this bid to have a section of Minden rezoned has been the inability of everyone involved to give a straight answer. And Tuesday night's episode at the community centre was no exception.

According to written information distributed Tuesday, owners of property lying in the "flood way" will be allowed to expand their present buildings by as much as 25 per cent. However, the information dealt out verbally indicated that expansions in this area will "probably" be permitted up to "about" 50 per cent.

This is just one of dozens of important matters which need clarification before any further consideration should be given to this issue.

A lot of time and money has already been sunk into this quagmire of misinformation. Instead of condoning this, council should be protecting our interests and demanding that questions be answered clearly and honestly.

Leave it to...

Politics and flying pigs

Politics has not ceased to make strange bed-fellows or, at least, the politicians of both parties continue to share the same bunk. You know the kind of bunk we mean.

Calgary Bob Edwards

Saints preserve us and will wonders never cease. I thought these eyes had beheld all the miracles one pair of beady bloodshot orbs could register, but no, last month something happened in Washington that must have fogged up even Knowlton Nash's bifocals.

A politician was fired for lying.

What next? Pigs in flight?

Actually, it wasn't a politician who got the axe - only part of one. The mouth. Larry Speakes, former spokesman for President Reagan, admitted in a book about his White House years that he made up quotes and attributed them to the President.

At the Geneva Summit in 1985, Speakes told reporters that Reagan had turned to Gorbachev and said: "There is much that divides us, but I believe the world breathes easier because we are talking together."

Profound. Statesmanlike. Never happened.

When the Russians shot down the Korean Jet Liner in 1983, reporters clamoured to hear what the President would say. Instead they heard the fiery words of George Shultz, plucked from the mouth of the Secretary of State and popped into the maw of the not-quite-on-top-of-things President, who, even five

black 'n white

by Arthur Black

years ago didn't always have both boots in the stirrups.

The culprit? Larry Speakes again. "My decision to put Shultz's words in Reagan's mouth played well," wrote Speakes, "and neither of them complained."

Ah well ... it's a tough job, packaging politicians and making them palatable to the public. Some pols are astute and talented enough to do the job themselves. Winston Churchill needed no speechwriters. He observed events then sat down with a fountain pen and dressed them up himself, in long, rolling magnificently cadenced sentences.

But most public figures don't have time to be literary, so they hire agents. A lot of people think Caesar proclaimed "Veni, vidi, vici" - I came, I saw, I conquered - after a military victory in Asia Minor. Not true. What Caesar really said was: "Thank Pluto that's over! Pull these boots off and order me a deep dish pizza with a side dish of catamites!"

The punchy Veni Vidi Vici quote comes from a parchment press release put out by Caesar's advance man, a Phoenician flack by the name of Larius Speakistibus.

Similarly, President Kennedy reaped huge - and

unmerited - PR profit from his speech before the Berlin Wall back in 1962. Anyone who speaks fluent German knows that 'Ich bin ein Berliner' is only a phonetic hop, skip and jump from what President Kennedy was really shouting - "Where is the men's room?"

I have no doubt that our own Prime Minister, William Lyon Mackenzie King used the services of a wordslinging mercenary to prune and beautify his verbiage when -

No. Strike that. Any man who can say, 'Conscription if necessary, but not necessarily conscription' - has no need of a public relations flunky.

Which brings us back to Larry Speakes, a man whose career proves the old adage 'He who lives by the manure fork, dies by the manure fork.' The Speakes case abounds in ironies. First, he's been fired from his new job with Merrill Lynch, for what he did in his old job as White House spokesman.

Secondly, the only man who could have saved his bacon with a kind word or a forgiving nod - Ronald Reagan, claims he 'can't remember' not having said what he didn't say.

Third, Larry Speakes didn't even admit to the outrage. Not technically. Because Larry Speakes didn't even write his own book. He - like President Reagan - employed the services of a ghost writer.

Who says there's no God?

Descendent seeks family information

Editor:

My Great Grandparents, John Henry Long and Mary Dorothy (nee Scharfenberg) were originally from Mecklenberg (Germany). I have not been able to find out from what city or town only the province itself. John Henry was born in March 1851 and Mary was born in December 1851.

John's parents names were Charles Long and Mary (nee Sheffery).

I don't know when they married or where. Their first born, a son, William Henry Long was apparently born in Kinmount, Ontario in 1874. Other children born to John and Mary were Albert (1879), Frank (1878), Herbert (1884) (my Grandfather), Eva (1891) and Ethel (1892). all of these children were born in Peterborough, Ontario. Another child, an infant, died in

Peterborough, September 1881.

St. Andrews United Church (previously Presbyterian) in Peterborough, shows only one baptism record, Frank Long (1878). John and Mary lived in Smith Township (1881), Douro Township (1891) and continued to live at 168 River Road, Peterborough, Ontario until they passed away.

John Henry died April 30, 1929 in Peterborough, Ontario. His obituary in the Peterborough Examiner listed his next of kin as two brothers and one sister, no names were given.

Mary (John's wife) died October 9, 1923, Peterborough, Ontario. Her obituary in the same newspaper listed her next of kin as John Scharfenberg of Kinmount (her brother) and a sister Mrs. J. Stortz of North Bay, Ontario.

I am researching my

family history with the hopes of filling in a lot of the missing details.

I wonder perhaps if one of your readers might have information regarding any of the people listed as next of kin to John and Mary or information relating to their marriage or the name of the town they in fact came from?

Any information regarding this family of Longs would be greatly appreciated.

Please write to Robert E. Long (Bob) 1024-82nd Street, Edmonton, Alberta T6K 1X6. (Phone collect 1-(403) 462-2615).

Bob Long,
Edmonton.

Battling the bugs

Editor:

In your recent edition, Monday, May 16, 1988, you ran a picture of a blackfly fighter on the editorial page. This graphic message prompted me to write the following article which I call Blackflies - A Rookie's Guide to the North.

Arrival in the north and unfamiliarity with its residents and customs leads to much good natured jesting. However, blackflies are not something one thinks about with humour; so after much advice I have found the following steps to be essential, some even mandatory for protection against these little beasts.

- (1) Vitamin B-1 Thiamine
- (2) Consume no bananas
- (3) Wear no perfume or after-shave lotion
- (4) Do not wear hair spray
- (5) Use of a good insect repellent, I have found Repex to be excellent
- (6) Use of Avon's "Skin so Soft" is also reported to

be a good shield.

(1) The vitamin B-1 is started with one tablet four times a day, and this continues for the first three days of consumption, followed by a six week course of two tablets per day. This should continue until the flies are gone, or you find they like you better with a B-1 chaser.

(2) Why no bananas? I don't know. However, the flies love what it does to the skin and so why invite them to lunch?

(3) Perfumes are sweet and smell pretty and are animal based products with pheromones which attract flies. Why tempt them?

(4) See item 3.

(5) Insect repellent is an insurance policy. When the season is in full swing and the flies are buzzing like crazy the repellent may be just the extra item needed to repel them. If the product is too strong, try...

(6) Avon's "Skin so Soft." This product appears to work very well and I have been unable to find out exactly what the reason for this success is. However, if it works, try it, you've got nothing to lose.

The author has been successful to date in trying numbers one and two, with the help from number five and common-sense use of the various perfume products.

This country and its people should be enjoyed and laughed with and this information not to be taken too seriously, but seriously, folks, it works for me, and so it goes.

Dwight Morley,
Minden.

Smooth road boosts speed

Editor:

As a homeowner on the newly constructed Bobcaygeon Road, I am pleased to see the final results of a long awaited, much needed face lift. Unfortunately, with the removal of the potholes and bumps, we now have a new problem - some motorists who think they're racing the Indy 500! This is a growing cause of concern with the increasing number of school children riding bikes and walking to and from school. The speed limit of 50 kph is posted on a number of signs between the bridge and the fairgrounds. However,

there is only one "school" sign, located at the junction of the Bobcaygeon Rd. and MacKay Drive. I feel that another "school" sign should be posted going south into town, as many of the offending drivers are coming from that direction. Also, two "Slow Watch For Children" signs might be worth considering as well.

In closing, it is imperative that something constructive be done to slow down these speedsters before a child is needlessly injured or killed!

M. Johnson,
Minden.

Editor:

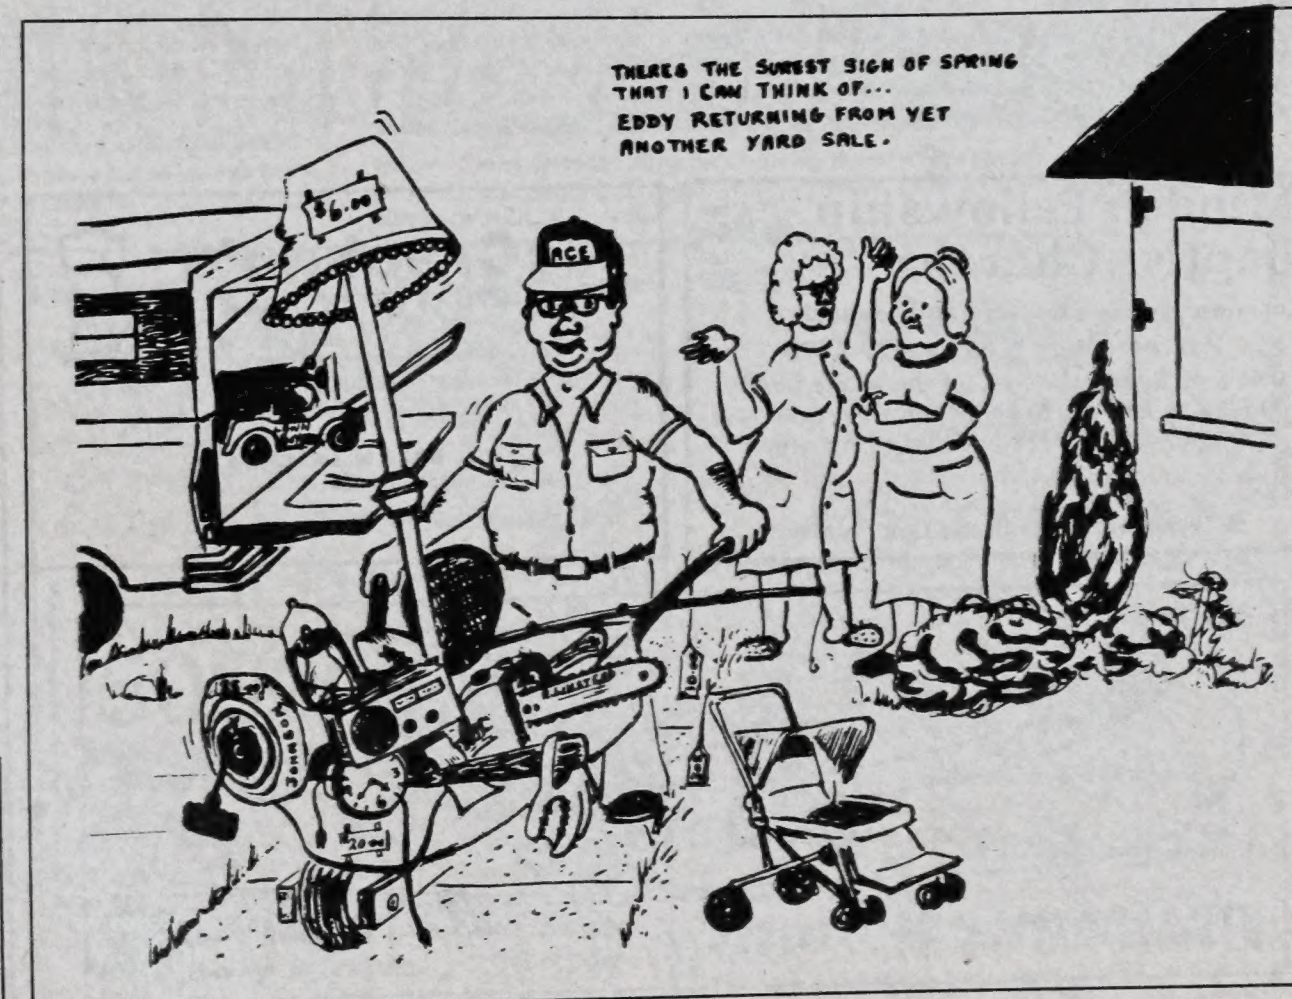

The museum committee wish sincerely to express their thanks and appreciation to Jack Brezina and staff of The Times for all

their help and time given so freely during the preparation and publication of the museum project supplement "Glimpses of Our Past", Historical issue on May 16, 1988. With the

help of those who canvassed, and to all those who so generously contributed, we the committee are pleased beyond words. The supplement speaks for itself and perhaps we can

feel that progress is connected to the past history of the area, and to history yet to come.

Building permit fee halved for new seniors' complex

Anson, Hindon and Minden Townships Council has reconsidered its position and is now willing to waive half the fee for a building permit for the new seniors' complex to be built adjacent to

Staanworth Court.

Reeve Sinc Nesbitt broke a tie vote on this matter at the May 12 meeting, giving clearance for half the fee to be for-

given. Councillors Verne Graham and Bob Sisson voted against this resolution.

Deputy Reeve Bern Berry introduced the motion, after a request for forgiveness of the entire fee, estimated at \$9,000, was turned down at the previous council meeting. Berry said the \$2-million project will benefit the village in many ways. In addition to providing

housing for seniors, it will create jobs in the construction. He said local building supply businesses will benefit, and in the end the facility will generate new taxes for the municipality.

Sisson spoke out against the motion, saying this would be setting a bad precedent. If half the fee is waived for this project, the same should be done for all projects of this size. "What

are you going to do when the next one comes in?" he asked.

Because this project is funded entirely by the provincial and federal governments, councillor Graham feels that forgiving the fee is a disservice to local taxpayers. Instead of having this fee paid by the provincial and federal governments, the municipality is picking up the tab.

Howe supports bid

(from page 1)

meeting, he prepared a report which outlines his reasons for restructuring the county's municipalities. In his letter, he made it clear that he did not intend for a vote to be taken to implement a study. Instead he had hoped to discuss the pros and cons of the concept.

Presently the county is made up of 10 municipalities with 50 elected representatives, he said in a letter. Of the 50 municipal council members, 16 sit on county council.

A wide variation in population, area and assessment among the 10 municipalities "produces anomalies at county council in priorities related to apportionment, voting strength etc. and this will widen as we move ahead in

the socio-economic area."

The fact that the county does not have an official plan creates inequities as a result of differences in the various municipalities' Restricted Area Zoning Bylaws. "It must be amusing for those municipalities who have Official Plans as those who do not because Official Plans, as well as Zoning Bylaws, vary widely within the county," he said. "This must create a nightmare for outside interests wishing to relocate within county boundaries."

Proper planning is critical, said Howe, to deal with the increasing demand for services in a systematic and logical manner. He said this can not be accomplished with a fragmented administration. Some of the services

he mentioned in his letter include land development, transportation, waste disposal, housing, medical and fire protection services.

Howe also emphasized that he has no intentions of reducing staff at the municipal level. "As anyone can see, the demands for services as mentioned above will require all the human resources we now have and in all probability will increase as time goes by."

"Our economy is moving at a rapid pace and changes are imminent," he said. "Therefore, I feel we are in a position to chart our own destiny rather than have some body of senior government tell us what to do down the road. After all, who is more

familiar with Haliburton County than us?"

"It is important to open discussions on these matters or at least keep them foremost in our minds because I assure you they will come about and in all probability, we, the present council, no longer will be involved and I for one will not sit back and criticize future councils for something I could have contributed to."

"We have one of the most beautiful areas in this country and to keep this we must start thinking as a unit at county level or we will surely retard or destroy what we have."

"Most importantly, this is strengthening county government not moving to regional government of which I am not in favour."

in the Valu-Mart Mall
Highway 35 - Minden

The tire swings proved to be a popular feature on the new playground equipment. Trisha Rowden shares the fun with two other students Thursday at Archie Stouffer Elementary School.

Swings 'n' things

Students at Archie Stouffer Elementary School have a new piece of playground equipment thanks to the efforts of the local Home and School Association. The group raised \$6500 including donations from a number of area service clubs to finance the purchase. Included in the piece of equipment are tire swings, a slide and various climbing sections. The equipment was installed last week, with the assistance of the school board, and as these photographs indicate, it didn't take the students long to discover how much fun the new facilities could be.

Shawn Casey tests the fireman's pole on the new playground equipment at Archie Stouffer Elementary School while Kristen Colliss, Ryan Dawson and Kim Bagshaw wait their turns.

Black Bear car rally returns to Minden's Main Street next Saturday

Forty cars will start their engines at 1:30 p.m. on Saturday, May 28, in Minden for the tenth annual Black Bear Rally. Although the race has always been held in the Haliburton area, this is the third year for the Main Street start.

Drivers will begin lining up their cars outside the Rockcliffe Tavern at 1 p.m. During the morning, from 9 a.m., the cars will be assembled at the Minden Arena for "scrutineering" or inspection by race authorities. The public is invited to the arena to look over the cars and talk to the drivers.

The cars will set off at one-minute intervals and must follow a carefully timed route. They are expected to begin arriving at the finish line at Halls Lake around 7:45 p.m. Spectator points are provided along the way, particularly in the area of Kushog Korner. A handbook giving complete details on access points for spectators and other race information will be available at the arena and at the Rockcliffe for \$1.

Race organizer John Skinner points out that the event presents no hazard to the general public. "Everything done on public roads is strictly within normal legal limits. If anyone gets a ticket, they're thrown out of the rally. Speeding is limited to forest

First car off at 1 p.m.

roads that have been closed to the public and carefully set up for the event with OPP permission."

Two classes of cars will participate in the rally. Production class cars are much the same as those found in the car showroom. They have been modified for safety with full roll cages, window nets, and skid plates. But the engines are unchanged. This class is divided into two sub-groups. Class A includes engines with a displacement up to 1600 c.c. Class B are over 1600 c.c.

The open class cars, on the other hand, have been highly modified. A four-cylinder engine can have as much as 200 horsepower. According to Skinner, some highly specialized cars will be coming to Minden to compete in this class.

Each car has a driver and a co-driver. Men and women alike participate in both capacities. The Black Bear Rally is a performance event. The skill

lies not in getting to the finish line in the shortest time, but in arriving at each of the seven checkpoints exactly at the prescribed time. To get there too soon or too late costs the team points. The driver takes instruction from the co-driver who consults a route book provided that morning showing the race course, the speeds to be travelled, and the time to arrive at each destination. "For example," says Skinner, "it would normally take the ordinary driver about 20 minutes to get from Minden to the Black River checkpoint. In this rally, it should take 40 minutes."

There are no full-time professionals in the sport. But most cars are sponsored to some degree, a few by major corporations such as General Tire. Two of their top drivers, John Lutemberger and Andy Browning, are entered in the Black Bear Rally.

Winners of the race will gain points toward the Ontario Regional Championship plus a trophy and small cash prizes. The Black Bear Rally is the first of four races in the Ontario Region this summer. Competitors are expected from throughout the province as well as Manitoba, Quebec, New York, Michigan, Wisconsin, and Vermont.

Two green thumbs and lots of luck

by Anne Hewitt

It takes more than a green thumb to make the gardens at the Stanhope Municipal Office bloom. It also takes a bit of luck!

For the past two years fate has been frowning on George and Edna Tipton, the two gardeners who plant and take care of the flower beds.

In 1986 their hard work was spoiled when thieves made off with the dozen geraniums they had planted. "Someone must have thought geraniums would look good in their own garden," said

Edna. "I guess I'll have to plant them a bit deeper this year."

Last year's garden began with yet another disaster. The municipality had provided a brand new tub for watering the plants. The first time the flowers were watered, they all died and the entire garden had to be replanted. "We think the tub must have been chemically treated," said George. "The chemicals would have killed the plants."

George, 78, and Edna, 72, moved to Canada from England in 1961. After several moves from farm to farm, they finally settled in Uxbridge. In 1976 they moved to just east of Carnarvon.

The Tiptons helped form the Minden and District Horticultural Society in 1977, with George acting as Vice-President the following year. It was this society which first approached the Stanhope Municipal Office with the idea of planting a flower garden.

In the summer of that year the first seeds were sown. The gardeners were George and Edna. They planted the garden until 1982, and then took a four-year break. Two years ago they took over the job again.

The flowers for the garden are grown from seed in a greenhouse George built onto the back of their

home. The long room is lined with rows of geraniums, as well as exotic passion-fruit vines, lemon trees, and orchids. "The orchids are my pride," said Edna.

Within the next two or three weeks the flowers will be transplanted to the beds the Tiptons have been preparing. "It will be mostly geraniums, marigolds, and petunias," said Edna. "Right now it's all tulips."

In return for their long hours of volunteer work (in addition to the planting, the beds had to be watered almost every day last summer) the township makes a donation to the Horticultural Society.

Fire departments participate in forest wildfire prevention program

A pilot project is under-way in the districts of Parry Sound, Bracebridge and Minden to help volunteer fire departments prevent unwanted forest wildfires.

Cash prizes are being offered for the three best Forest Fire Prevention Plans prepared and implemented by the fire stations in the test districts of Parry Sound, Bracebridge and Minden.

Sponsor of the project is the Ontario Forestry Association. If successful here the project may be tried on a broader basis across the province. Ministry of Natural Resources staff has assisted and will be assisting in development of the program.

Letters were sent in April to reeves and mayors in the test area advising them that their fire chiefs

were being invited to take part in the competition. Chiefs received a competition entry form which has to be in by May 31.

Upon return of the entry form the entrant gets a kit including competition guidelines, a sample plan outline, suggestions for fire prevention activities and materials. The Plan must be in by June 30.

Judging, which will include evaluation of the

Plan's implementation, will be undertaken by a panel of judges through the summer and fall. The Plans will be judged on their identification of problems and effective solution techniques planned and implemented. Announcement of the three winners will be made in October with suitable presentations including the \$500, \$300 and \$200 cash prizes for 1st, 2nd and 3rd

respectively.

Emphasis is being placed upon prevention of fires caused by recreationists and brush burners.

OFA's Forest Fire Education Committee, chaired by Lew Ringham of Bracebridge, is responsible for the project. The Competition Co-ordinator is George Hamilton of Haliburton. He will be visiting the participating fire stations to deliver their

kits and discuss the possibilities for fire prevention activity. Both men are retired and have had extensive experience with the Ministry of Natural Resources.

"We know that forest fires are not a major problem in the test area," Mr. Ringham said, "but we do have forest fires here. There are a lot of very good

Study will examine potential of visual arts school

A proposal to establish a year-round school of visual arts and recreation in Haliburton County is moving ahead despite concerns that the required study will cost far more than anticipated.

The terms of reference for an Economic Development Study of the county were given approval at Wednesday's County Council meeting and tenders are now being

sought. However, Dysart Reeve Murray Fearrey expressed his belief that the \$30,000 estimated cost "won't even open the door on this."

In spite of this, Carol Puffer, who chairs the Sir Sandford Fleming College Liaison Committee, urged council to approve the terms of reference. She said there are a number of recent studies on the Highlands from which the con-

sultants could draw their information. The availability of this information should cut down on the amount of work to be done and on the price tag, she said.

If tenders do come back at a much higher cost than the \$30,000, the county has no commitment to accept them, said Puffer.

The terms of reference were prepared in conjunction with the college

and the Ministry of Municipal Affairs. The study will determine the feasibility of establishing a year-round fully integrated post-secondary educational institution focussing on the visual arts and recreation. It will also address possible alternatives for the promotion of economic growth in the county, as well as a long-range strategy for its implementation.

Highway 503 tenders called

Transportation Minister Ed Fulton announced that tenders have been called for paving and structure rehabilitation on Highway 503 from 0.6 km west of

Highway 35, Norland easterly for 6 km including Gull River Bridge.

This project on Highway 503 is undertaken to pave a 6 km section between

Norland and Kinmount along with rehabilitation of the Gull River Bridge.

The results of this work will extend the life of the structure and provide

improved driving conditions through the area.

Tenders will be opened for this project at ministry headquarters in Downsview June 8.

Bethel area is dear

Editor:

I read with interest your article entitled "Bethel Church approaching 100 years". The Bethel area is very dear to me as it was here I came as a bride in 1944 to meet my new family and returned a year later - for good. The years have brought the inevitable changes and yet so much remains the same.

I would like to add a few more details about Bethel and make a few corrections if I may. It was William and Blain Robertson - not Robinson - who felled logs for the church. Blain being my husband's paternal

grandfather and W.J. Archer his maternal grandfather. Mr. Archer was reeve of A.H.&M. in 1913.

In the spring and summer of 1916 Edward Cox - a brother of the baby Arthur - attended church services whenever he was home on leave and played peek-a-boo with Blain and W.J.'s baby granddaughter. He went overseas later that year and was killed on Vimy Ridge the following spring. His name is now inscribed on the county cairn along with that of his brother Herbert. The last school concert was held in 1960 in the church and Mrs. Annie Cox had gifts

for all the children and pre-schoolers in the area to commemorate the school's imminent closing. The last wedding to be held in Bethel church was that of Erastus and Evelyn Robertson, July 12, 1965. I would like to commend Mr. Johnson on the excellent condition of the grounds at Bethel, it is a pleasure to visit there now.

I also enjoyed "Glimpses of Our Past" and am sending copies to the children in Vancouver and Calgary. Thank you for some lovely reading.

Marjorie Robertson,
Minden.

Fire departments

(from page 11)

volunteer fire departments, too. It's a good place to start."

Fire stations in the test

Early fire warning can save lives

Install and maintain one or more smoke alarms in your home to provide you with early warning of fire conditions.

Vaccinate Your Pets

Pet owners should know that rabies vaccination protects both the animal and its human companions. In the past 10 years rabies was diagnosed in 16,392 animals in Ontario of which 1,408 were dogs and cats. More than half of the 12,000 people who had to be vaccinated during this period had been exposed to dogs and cats. Rabies vaccine provides animals with an effective barrier against infection from four weeks after the inoculation for a period of a year or more. Cats require more frequent booster vaccinations than dogs to maintain a good level of immunity, but your veterinarian's advice on the frequency of vaccination for both dogs and cats should be followed.

area that want to take part are asked to contact the Competition Co-ordinator, Forest Fire Prevention Plan Competition, Box 2560, Bracebridge, Ont. P0B 1C0.

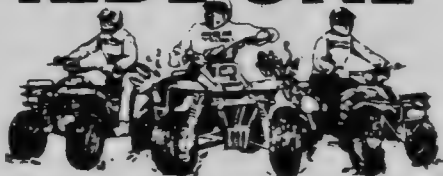

The Ontario Forestry Association is a non-profit, non-political educational organization

with membership open to all. It conducts many projects including conservation and woodlot management courses and the Honour Roll of Ontario Trees. It began as a forest fire prevention organization in 1949 and sponsors the Smokey Bear program provincially.

A noteworthy performance by students

Once again, this year, the auditorium at Archie Stouffer Elementary School was filled as the members of the school's senior classes presented their annual music night. The evening featured a variety of presentations, including the grade 6, 7 and 8 bands, a number of instrumental ensembles and vocal music.

Each presentation was greeted with warm applause from the appreciative audience. In addition to the three bands, the following performers entertained Thursday night:

- Karen Little with a bass

clarinet solo.

- Jackie Smith and Donna-Lee Simmons with a clarinet duet.

- a brass ensemble that included Toni Cooper, Tanya Berry, Ronnie Reid, Robbie Kraemer, Danny Reid and Cameron Berry.

- a piano solo by Kim Smith.

- a flute solo by Erin Lynch.

- Charmaine Beausoliel and Heather McGann with a vocal duet.

- a drum solo by Max Sennitt.

- a piano solo by Laura Hopkins.

- Greg Sison, who performed a tuba solo.

blindfolded.

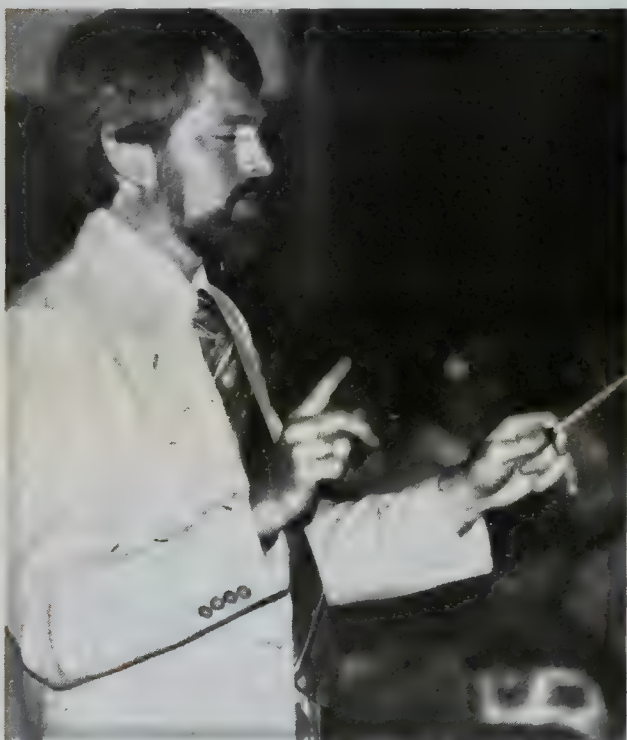

- a vocal solo by Saskia Smith.

- Danny Reid and Robbie Kraemer with a trombone duet.

- a flute solo from Vicky Beach.

- Katya Smith with a

(more on page 15)

Music teacher, Glen Carter, appears to be swept away by the music as he conducts the students during Music Night at Archie Stouffer Elementary School.

Tooting their own horns, these members of the grade seven band trumpet section include Andy Bacon, Jeff Walker, Toni Cooper, Tony Prentice and Jacob Graham.

Band leaves for Calgary

Back again, sorry about the two-week absence. However, no questioning letters of protest were uncovered at The Times so one could assume the residents of Haliburton County knew the massive we've had lately. Please bear with us.

At the time of writing the H.H.S.S. Stage Band have finally boarded the Wardair flight to Calgary. Spirits were undoubtedly soaring on Wednesday afternoon before their departure. The term 'excited' would be a major understatement.

The crew, under guidance of Mr. and Mrs. Vaughan left Toronto at 6:55 p.m. from Pearson International. It's certain that they slept well that night! Thursday will entail the beautiful sights of Banff, the Rockies certainly being a change to the local Highlands, a great experience. The rest of

voices of hhss

by Katy Beach, Dianne Garbutt and Heather Donaldson

their time there before the competition will be spent touring sights, attending music workshops and rehearsals.

The band should have arrived home Sunday night. No doubt, anyone who has followed the Band's efforts within the past few months have travelled to Calgary with them in spirit. We wish them luck, but simply being chosen to attend would be a tremendous honour for anyone.

Archery competitors travelled to Lakefield last Tuesday to shoot at the Kawartha Invitational held at Lakefield High School. The twelve teammates with coach, Mrs. Pizzey, arrived in the rain,

facing tough competition.

Haliburton proved itself with personal best, with 68 points improvement by Grade 12 student Jarrett Gentle. Tracy Salvatori simply shone, winning the girl's standard class. The clean sweep was aided by the ties of Grade 13 student Kathleen and next year's SAC president Kim Hicks for second. Fellow columnist, Dianne Garbutt completed this with a third place finish. The boys also had a placing in the boy's standard class with a third place awarded to Jay Garbutt. Congratulations to all. The school's team will compete this Wednesday in Belleville for the COSSA championship. Good luck.

Our COSSA track and field team travelled to Napanee last Thursday. We will post some results next week.

Some business classes travelled to North Bay last Tuesday and were shown and taught to work upon some various word processing equipment.

The end of the 87 - 88 school year is not far off. How do we know that, you may ask? Well, Mr. Phillips has given us one more renewal date for our books (those of you who have renewed for months because they haven't found the book have some serious hunting to do!). Also the last book report is due Friday, May 27th.

One certainly finds the school more relaxed than the feeling expressed during the winter. Possibly the warm days and the cool inviting Head Lake have something to do with that. Until next week.

Assistance for in-car phones

by Doreen Hawman

Under the Cellular Communications Assistance Fund, disabled drivers may be eligible for an in-car cellular phone. Bell Canada and CellNet Canada have established a fund designed to provide money for the purchase and installation of cellular mobile telephones for disabled drivers. The value of the equipment and

installation is about \$3,000. To be eligible applicants must drive their own vehicle, rely on a wheelchair and not be able to stand or walk. Approved applicants will receive, free-of-charge, an appropriate cellular telephone, installation of the phone in the disabled driver's personal vehicle, no monthly access charge and up to 100 minutes of free air time per month. Usage of over the 100

minutes per month will be billed at current rates and long distance calls will be billed at applicable rates. The program is administered by the Canadian Paraplegic Association, to receive further information and an application contact the CPA national office at 520 Sutherland Dr., Toronto, Ontario M4G 3V9.

If you require help completing an application or need a question answer-

ed, contact your nearest information centre. The office in Haliburton is open Monday - Friday 10:00 a.m. to 4:00 p.m. or call 457-2733.

For residents of the Minden area, the centre is open every Tuesday 10 a.m. to 4 p.m. or call 286-4100.

Have you considered becoming a volunteer? Contact your local information centre to register.

Environment leads list of concerns

Concern for the environment, concern for the future of rural Ontario, concern at the needless waste of garbage and the thought that something must be done now by the women of rural Ontario led over 400 women, mainly Women's Institute members to attend a Conference dealing with these topics. Titled Educate/Initiate the three day Conference organized by the Federated Women's Institutes of Ontario attended the opportunity to learn many of the

aspects of Waste Management and Recycling. As well the workshops helped the members gain new skills so they can go out into the community and help promote the various ways that our garbage can be better utilized.

The key note speaker on the Saturday evening was the Honourable Jim Bradley, Minister of the Environment for Ontario. On the panel discussing ways that our garbage can be used effectively were: Al Symmonds, Assistant Regional Director of the

Environment, Kingston, John Hansen, Executive Director Recycling Council of Ontario, Pat Salter, Deputy Reeve Township of Peel and a Women's Institute Member and Elizabeth Munt Co-ordinator Conserve Kingston.

Among those who participated in this Conference were: Jean Stewart, Norland, Victoria East

P.R.O., Dorothea Lynch, Norland, Mary Hills, Blythe Branch, Jeanne Sears, P.R.O.

Minden W.I.

Mrs. C. Lacey, the pres., welcomed us all as the Minden Women's Institute met at the Common Room for a regular meeting May 18. There were 20 members present and 2 guests were made welcome and most had plants for the auction.

Mrs. W. Moore gave her report of sending 11 cards since last meeting and collections for the Card Fund and Pennies for Friendship were taken. A thank you note from the High School Band was read. Plans were made for District Annual at Norland May 24 with delegates being Mrs. Lacey, Mrs. Lyman Cox, Mrs. A. Kernohan, and Mrs. Sears and two cars going and we leave the Post Office at 8:30. The members will make an entry in the Group Exhibit at our fair. We then heard

highlights from the F.W.I.O. Conference at Kingston given by P.R.O. Mrs. Sears. Following this there was a question period. She thanked us and asked us, "Would you like a landfill site beside your home? Are you a NIMBY? (not in my back yard)."

Mrs. A. Coulter gave us a short reading. Planning meeting for our programmes will be at Jean Cox's home on Wednesday, May 25 at 1:30 and this is for whole Executive. Happy birthday was then sung to Jean Marsh and Irene Moore. Next meeting is the pot luck lunch at the United Church hall on June 15 at 12:30 with a brief meeting. The meeting then adjourned and a social half hour followed while auctioneer Verla sold the plants turned in on the roll call.

Boom in mining sector

by Bill Scott, M.P.

The Mining Exploration Depletion Allowance (MEDA) has resulted in a boom in the Canadian mining sector. Under Tax Reform, MEDA is being phased out. In order to continue the benefits to the mining sector, the government has consulted widely with the mining industry. The new Canadian Exploration Incentive Program (CEIP), announced in the first week of May, is designed to assist the financing of grass-roots mineral exploration and oil and gas exploration through the use of flow-through shares.

After consulting with the industry, the following key elements describe the program:

No prior approval is required before companies enter into flow-through share financing agreements and obtain funding for their exploration programs;

CEIP has been designed to use the existing flow-through share mechanism, which has proved very popular with the industry; and

That eligible exploration expenses for the program be defined as using existing definitions in the Income Tax Act and the CEDIP Act and Regulations.

Details of the Program are as follows:

The government has announced the extension of MEDA to December 31, 1989.

CEIP begins on January 1, 1989 for mineral exploration.

CEIP will commence for oil and gas exploration on October 1, 1988, when the incentive rate under the Canadian Exploration and Development Incentive Program (CEDIP) is reduced from 33 1/3 per cent to 16 2/3 per cent.

CEIP will provide up to

\$3 million in incentives per corporation or associated group of corporations for each calendar year, based on 30 per cent of eligible expenditures to a ceiling of \$10 million a year.

The CEIP rate has been set at 30 per cent until December 31, 1990, after which the incentive rate may be adjusted up or down according to market

conditions.

The corporation must have incurred exploration expenses before an application for the incentive payment is made.

There will be no pre-approval process, which would interfere with companies entering into flow-through share agreements.

CEIP applications will be processed by Energy, Mines and Resources through existing offices in Calgary and Weyburn, Saskatchewan, and regional offices will be established in Vancouver, Kirkland Lake (Ontario), Val-d'Or (Quebec), Saint John (N.B.) and St. John's (Newfoundland).

Affordable housing

by John Eakins, M.P.P.

Recently at Queen's Park, I was pleased to introduce new legislation which will help municipalities provide affordable housing.

The legislation will streamline the rezoning process by reducing the overall zoning time to a minimum of 41 days from the current minimum of 65 days.

The legislation also enables the Minister of Municipal Affairs to define a local planning matter as being of provincial interest, ensuring provincial guidelines and other government interests in land use are considered.

We are preparing municipal planning guidelines to help municipalities plan affordable housing. These guidelines have been set up to meet the goal of 25 per cent affordable housing in every community.

This initiative reflects the Government's commitment to help provide affordable housing throughout the province.

Also, on an entirely different topic, I was pleased that funding has increased for the disabled community and for seniors.

Seven million dollars, an

increase of 17 per cent over the interim period 1987-88, has been designated for the Ministry for Disabled Persons. Included in the ministry's allocation is the continuation of the Capital Access Fund to improve physical access for the

disabled.

The Ministry of Transportation's funding will be increased by about 31 per cent in 1988-89 for improved access to conventional public transit and expanded eligibility for special transit facilities.

Letters

Editor:

On March 27, 1988, the Hon. Jake Epp stated to the Board of Directors of the Canadian Cancer Society at its 50th Anniversary Dinner that he had spoken to his Cabinet colleagues that week and received the commitment that Bill C-51 (The Tobacco Products Control Act) would be passed by the House of Commons before the summer recess.

Also, on March 15, 1988, the Hon. Doug Lewis was quoted in the Toronto Star that Bill C-51 was one of the "Government's top initiatives" for passage before June 30th.

The time is running out. The Government is only a few days away from the point where, logistically, it will be extremely difficult, if not impossible, to obtain approval of the House Senate and Royal Assent

before the House progresses and the Bill dies.

The Federal Government by its own statements has acknowledged that tens, and probably hundreds of thousands, of preventable deaths hang in the balance unless a significant intervention in the tobacco epidemic takes place. Bill C-51 is the Government's promised response. We are simply insisting, for an entire generation of kids, that the Government act with integrity and keep its promise.

Ron Potter,
President,
Ontario Division,
Canadian Cancer Society.

CORPORATION OF THE TOWNSHIP OF STANHOPE

PUBLIC NOTICE

TAKE NOTICE that the Council of the Municipal Corporation of the Township of Stanhope, proposes to enact a by-law to stop-up and close and convey to the abutting property owner that part of the original allowance for road set out and described as follows.

FIRSTLY: All and Singular that certain parcel or tract of land and premises situate, lying and being in the Township of Stanhope, in the County of Haliburton and being composed of part of the original sixty-six foot shore road allowance along the shore of Big Hawk Lake lying in front of part Lot 21 Concession XIII and that part of Lot 21 Concession XIII designated as road allowance on Crown Land Survey attached to Instrument Number 2372 and being more particularly described as Part 1 on a Plan deposited in the Registry Office for the Registry Division of the County of Haliburton as Plan 19R 4032.

THE PROPOSED BY-LAW will come before the said council for consideration at its regular meeting at the Municipal Office in the Township of Stanhope on the 8th day of June, 1988 at the hour of 11:30 a.m., and at that time, the Council will hear in person or by his/her counsel, solicitor or agent any person who claims that his land will be prejudicially affected and who applied to be heard.

DATED: May 6, 1988.

Gerald C. Bain, A.M.C.T.,
Clerk-Administrator
Township of Stanhope
R.R. #1, Haliburton, Ontario
KOM 1S0.

THE HALIBURTON COUNTY DEVELOPMENT CORPORATION

is accepting applications for the position of
ADMINISTRATOR

Duties include, management of the day to day operation of the office and all related bookkeeping and accounting; researching and developing credit applications and the administration of the Corporation's loan portfolio. Initially this position will include secretarial duties.

Possessing good interpersonal and communications skills, the qualified applicant will have a strong administration background with experience in credit and accounting. Computer experience with Lotus 1-2-3, DBase III and Wordperfect is an asset.

We offer an excellent salary range and benefits package.

Qualified individuals please submit a resume by May 27, 1988 to:

MR. ANDY CAMPBELL
Haliburton County Development Corporation
P.O. Box 29
Haliburton, Ont.
KOM 1S0

We would like to thank all the customers affected by the power outage on Sunday, May 15, 1988. The delay caused by a thunderstorm which passed through the area was unfortunate and we apologize for the added inconvenience.

We appreciate your understanding and again Thank You.

The Staff of Ontario Hydro.

Guild notes

by Virginia Muenzel

In case you haven't noticed, there is a handsome quilt hanging at the Bank of Montreal. It is a variation of the Dresden Plate Quilt, and has been lovingly created for the Guild by the Eagle Lake Women's Association. If we are able to find volunteers, there will be someone available at the bank on Thursday and Friday from 11 a.m. to 1 p.m. to sell tickets. If you would be interested in doing this, please phone Holly at the Gallery. Tickets are on sale, in any case, at the Rails' End Gallery, or from board members, at \$2 each, or three for \$5.

The Guild has also been fortunate enough to have had the S.S.F.C. canoe built by one of their classes, donated to us at cost to raffle off. The tickets for the canoe are also \$2 or three for \$5. We hope to have both of these items visible in or around the Home Show on May 26, 27, and 28. We, in the Guild realize that there are some persons who are not enthusiastic about raffles. However, because we are always doing our best to raise funds, and because there are very many people who enjoy buying raffle tickets in order to support their favourite organization, we will carry on.

Are you a watercolour painter or fan? Even if you aren't, you should get some enjoyment out of the lecture on the History Of Watercolour being given by Barry Coombs, Senior School Artist, AGO, at the Rails' End Gallery on Wednesday, May 18th at 7:30 p.m. Barry will take you into the fascinating and private worlds of the masters of watercolour, discussing their unique styles and techniques. Admission is free. However, all contributions are gratefully accepted.

Imagine my embarrassment, when I discovered that the Flea Market the Guild is participating in occurs on Saturday, May 28th. Not, I repeat, not on May 21st, as I have been indicating all this time. But, luckily, it doesn't create any inconvenience. It will give us another week to gather up your treasures to sell in support of the Guild. If you have something you'd like to donate, please bring it to the S.S.F.C. cottages on Thursdays between 10 a.m. and 12 noon. They are on Highland Wood Drive, the road that turns off County Road 1 before the hospital.

The Guild is also looking for volunteers to work at both the Flea Market and the Home Show. To volunteer for the Home Show, call Holly at the Gallery, 457-2330.

Folks coming into the Gallery have been very excited about the shows in both rooms. Ivory and Horn contains some exquisite pieces of scrimshaw, some beautiful creations from mastodon tusks, and many, very delicate carvings of found antler horns. Also, in the Highland Room (the new name for the main gallery) is the show Through the Windshield of a Truck by Irene McCaugherty. Each of these unique paintings tells a story relating to the artist's life on the prairie. These shows close on May 23rd, so try to get into the Gallery to see them.

Preparations are well

underway for the 24th Annual Summer Sale and Exhibition. Of course, dozens of volunteers are needed. If you wish to be part of this very important fund raiser, please call either Cecil McLeod at 457-1495, Claire MacLeod at 286-1696, or the Gallery. The committee needs people for set-up, take-down, sales, security, posting, and a person to man the phone. The summer sale opens on July 8th.

Did you know that tickets are now available for the 1988-89 concert series? They make great gifts. Ask at the Gallery.

ONTARIO GOVERNMENT TENDER NOTICE TO CONTRACTORS AND SUPPLIERS OF CRUSHED GRAVEL

Tenders for the supplying, loading, hauling, placing and/or stockpiling of Granular "A", Types I and II, Crushed Gravel.

Tender #11-88-37:

NOTICE

The Sunday worship services for the Minden/Carnarvon/Maple Lake Pastoral Charge of the United Church will be held at the following times, effective Sunday, May 29, 1988:

Zion United Church, Carnarvon - 9 a.m.
Maple Lake United Church, Maple Lk. - 10 a.m.
Minden United Church, Minden - 11:15 a.m.

The change will continue for the summer months and may become permanent at a later date.

NOTICE

IN THE MATTER OF THE MUNICIPAL ACT: and IN THE MATTER OF a proposed By-law of the Corporation of the Township of Lutterworth to stop up, close one portion of the sixty-six foot unopened Original Shoreline (Marine) Allowance for Road, in front of Part of Lot 22, Concession 1, Part 8, Plan 379, and the shoreline perimeter of Spar Lake, in the Township of Lutterworth and to convey the aforesaid Shoreline portion to the abutting property owner.

NOTICE IS HEREBY GIVEN, PURSUANT TO Section 301 (1) (a), of the Municipal Act R.S.O. 1980, that the Council of the Corporation of the Township of Lutterworth proposes to consider and if deemed advisable, to pass at its Regular Meeting to be held at the Council Chambers, 3 miles south of Minden, on Highway No. 35, on Tuesday, May 31st, 1988 at the hour of 4:30 p.m. a By-law to stop up and close the portion of land more particularly described as follows:-

SCHEDULE "A"

ALL of that adjoining part of the sixty-six foot unopened Original Shoreline (Marine) Allowance for Road along the shoreline perimeter of Spar Lake, in front of Part of Lot 22, Concession 1, Part 8, Plan 379, in the Township of Lutterworth, in the County of Haliburton, designated as Part 1 on a Plan of Survey deposited in the Registry Office for the Registry Division of Haliburton (19) as Plan 19R-4038.

A copy of the Survey Plan 19R-4038 is attached to the proposed By-law and may be viewed at the Lutterworth Municipal Office during normal working hours.

AND FURTHER TAKE NOTICE that before passing of the said By-law at its Meeting to be held at the time and place aforementioned, the Council of the Corporation of the Township of Lutterworth, shall then and there hear in person or by his or her counsel, solicitor or agent, any person who claims that his or her land will be prejudicially affected by the said By-law and who applies to be heard.

DATED at the Township of Lutterworth this 22nd day of April, 1988.

Check before you buy

prepared by the
Haliburton District
Real Estate Board

Dreaming of a cottage by the lake, a scenic hide-away surrounded by acres of bush, or a chalet on a Haliburton County hillside? Before you buy take a good look at both the property and the area to ensure that your dream doesn't turn into a nightmare.

Because potential buyers of recreational properties usually live in major cities, many are unfamiliar with all the various recreational areas and the different types of accommodation available. Learn about our County. The Haliburton District Real Estate Board prints a county map for your use. Ask your agents for one and get to know the County.

Before you purchase a cottage or recreational property make certain any questions you may have about the accessibility of the area, the calibre of recreational facilities, like boating, fishing, skiing, and environmental issues are answered.

A cardinal rule

In addition, there are a number of guidelines for buying country property. One of the cardinal rules is to make sure you are aware of real estate values in the districts you are interested in. You can avoid paying too much by investigating the prices of other comparable properties that have sold recently or are currently listed for sale.

When it comes to waterfront cottages, those on the larger lakes tend to command more money than similar properties on smaller lakes. There are of course small lakes that have been exclusively developed, but as a general rule, larger lakes appeal to more buyers because they offer more opportunities for boating.

DAVID GUARDINO PSYCHIC TO THE STARS AND CELEBRITIES

Can help you to obtain
love, health & wealth.
Call or write anytime:

David Guardino
c/o M.G.G. III,
P.O. Box 2638
CLARKSVILLE, Tenn.
37042

615-675-0150
615-531-1930
615-356-4719
615-747-8708

All year round

Travel time is probably the largest single factor influencing the value of recreational properties. Most people are willing to travel up to two and a half hours to get to a ski chalet, country home, or cottage. This makes Haliburton Highlands ideal to all areas in the Golden Horseshoe. All other things being equal, the more accessible the area, the higher the price.

With the growth of winter sports and the cost of foreign travel, insulated cottages with year round access have become even more popular. An average sized cottage that can be used in the winter can be worth thousands of dollars more than an identical summer only cottage.

Know where you are

When buying recreational property, pay particular attention to the lot and its location. You can usually enlarge or renovate the building, but you can't do anything about the size, topography, or location of the property.

For cottages, the ideal lot seem to have to face south or west to have good sandy shoreline. If you love a great view, you are going to get it from a steeper lot. Your ideal is not always everyone's ideal; rugged lots may be better suited to you.

Help your agent

Define your needs. Know the size of cottage you want, the price range you are comfortable in, the size of lake you would prefer, does it need to be year round or winterized. Let the agent know your recreational requirements, be it canoeing, sailing, water skiing or year round recreation such as cross country skiing and down

hill skiing both of which are offered in this county. If you are only going to use your cottage in the summer, why pay year round prices?

Because there are so many subtle location variations that effect recreational areas, it is in your best interest to deal with the area. If you don't know anyone who works in the area you want, ask the Haliburton District Real Estate Board to recommend several agents to you.

Questions for the Real Estate Board

(Q) I am contemplating listing my home but I don't want a "For Sale" sign on my property. Do I have to allow a real estate sign to be placed on my property?

(A) No, you do not. It is your decision to make. However, there are usually two reasons why homeowners do not want a "For Sale" sign. One is because they don't want their neighbours to know. The second is because they don't want unsolicited individuals knocking on their door interrupting their privacy. Before you decline having a real estate "For Sale" sign on your property, consider the

following very important facts?

1) The single most effective marketing aid for your property besides your real estate salesperson who is marketing your property to his many prospects is that "For Sale" sign. What do you do when you are looking for a home or a cottage? You probably spend many afternoons driving around your favourite areas looking for "For Sale" signs, right?

2) The highest and best offer may come from your neighbour's friend. Your neighbour likes where he lives and has many visitors over the years who also feel the same way as he does!

3) You don't have to welcome all who knock! As a matter of fact, the best thing for you to do is to refer the individual to your listing salesperson who is well informed on your property and the area and remember - you hired them to perform just this function ... to show your property at its best advantage and to inconvenience you as little as possible. So you aren't being unsociable ... you're just referring the person to the individual you have hired to sell your home.

kid's korner

by Jean Lacey

Hi Kids!

Here is another puzzle for you with a word list. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters. Circle the words in the diagram and cross it off the list.

It's as easy as that. Have fun!

Q: What kind of eye glasses do spies wear?

A: Spy-focals.

Q: What happened when the police caught the frankfurter?

A: They grilled it.

Q: What happens to people who steal watches?

A: The lawyer gets the case and the judge gives them time.

Q: What happens to a thief if he falls into a cement mixer?

A: He becomes a hardened criminal.

Q: Which member of the ship's crew puts away the playing cards?

A: The deck hand.

senior league

by Pearl Lyle

Hello readers. Beautiful weather after the storms.

Service in the chapel Sunday evening was by the Rev. J. Burgess and Tuesday morning by Rev. Moll of the United Church.

The ladies from the Horticultural Society brought the lunch on Thursday for our afternoon tea. It was really good and was much enjoyed by everyone.

The movies Monday evening was "Great Gray Owl".

Visitors for Alice Todd were Marie Turriff of Napanee and her mother Emma Poole. It was a nice surprise. Ada Lewis, Lola

Prentice and Maron Rose attended afternoon tea at the home of Mr. and Mrs. Dick Kirkwood in honour of Mrs. Dr. Crowe, a resident of Minden for a great many years. My grandson Derek Hewitt came to see me on the weekend and took me out for dinner and a nice drive around the country side. Jean Taylor arrived home last evening having spent a very pleasant weekend at the home of her niece Mrs. Hobbs and family. Bert Harrison had many members of his family to visit him since the last news from the senior league.

Au revoir. Till next week.

Winners at Club 35 this week were: 50/50 - Mabel Trodd, most lone hands - Hal Burton, high lady - Melissa Hampson, high man - Len Trodd and others - Mary Schad, Cliff Woolner and Betty Dicker. A macrame lawn chair made and donated by the Randells was won by Murray Daniels.

Congratulations are in order for Rex Harrington for his promotion from First Soloist with the National Ballet Company of Canada, to Principal Male Dancer with the Company. Yvonne Guida first saw him perform in the Bacchinal Scene in Aida, and told him then that he was well on his way to becoming another Baryshnikov and it seems she was right. All good wishes to this fine young dancer who is as nice in person as he is charismatic on stage.

Save God's Creatures
God created man
But he also created creatures
Large and small
Who cannot speak
Except with eyes and sounds.
They, like us come into the world
Helpless.
It is only our love and compassion
And care

That makes a baby live and thrive

As it was meant to do.
Can we do any the less
For God's beautiful creatures

That sometimes are unable
To communicate their longings

For love and a modicum
Of our time, concern and
Perhaps a home.

Someone to say, "I care!"
They, like children, did not
ask to be born.

Can we turn our backs
On helpless creatures
So beautiful, so giving of
themselves

Who only ask for a friendly
pat,

A gesture -
Someone who will truly
mean

I love you.
Oh what joy that person
Will receive
In return.

Yvonne

CARD OF THANKS

Ian and Waneita Coltman would like to thank everyone for all their help in making their wedding day and dance a day to remember. A special thanks to Rev. Ian Flemming, parents, family and friends and everyone for the beautiful showers, gifts, cards and money. A special thanks to John and Tereasa MacRae for the beautiful buffet they put on for us. Also many thanks to Wayne and Freida Coltman for all their help. And to Bob and Audrey Smith, our bartenders. Thanks again everyone.
Ian and Waneita Coltman

The Archie Stouffer Home and School Association would like to thank all who helped with the purchase and installation of the new playground equipment at our school: the parents and teachers who helped with Fun Fairs and dances, and helped us raise the \$4500 needed to get this project underway, Mr. Brydon and the students who gave money from student funds, the Rotary Club, Minden and Kinsmen for generous donations and the School Board who paid the cost of the installation. We know all our children will appreciate and enjoy the equipment.
